ArcheAge BEGINS is a Android Free 2 play, Role-Playing Multiplayer Game RPG, featuring key contents optimized for mobile devices .

ArcheAge Begins is based on the PC MMORPG, ArcheAge and shares the same universe created by renowned Korean fantasy author Min-hee Jeon. ArcheAge Begins is developed with Unreal 4 engine. Players will be able to control their teams using the new “flip-style” battle method, which allows players to perform skills with ease on mobile devices. There are both single-player and multiplayer gameplay modes for players ; players can participate in real-time Raids with other users across the globe. Finally, they can enjoy ArcheAge Begins’ “life style” features such as fishing, trading and commerce.
