Adorable Home is a Game on Android , Simulation New and free .

You and your partner have just moved to a new home in the suburbs with your furry companion, an adorable cat named Snow. What to do first? Let's clean up so you can start decorating . There's a couch, a table and a TV stand but not much else. What's missing here?! Oh... silly me, a TV of course. Let's buy that first .

But we can't just watch TV all day. Your partner needs to work and you have important chores around the house to do. Be sure to prepare meals for your partner and feed your kitty (or multiple, kitties as the case may be) to earn love.

Use that love to buy more furniture, decorations, and yes... more CATS for your house to make it utterly adorable! The more cats you have, the more adorable moments you'll get. Capture them in snapshots with your retro camera and collect them all in your photo album.
