ZooMumba is a browser-based Strategy MMO Zoo sim game.

The game features social networking features, realistic sound effects, and lively animations deliver endless entertainment. As a zoo director, you can expect many challenges, personalize the zoo in a versatile manner, raise your animals and keep your visitors happy.

players are responsible for making sure their animals are healthy and happy. They have to provide food and water, and must call a vet if their animals get sick. Happy and healthy animals help the zoo attract more visitors, which increases the zoo's popularity, and makes it more successful. Players can also customize and expand their zoos by adding special animal habitats, concession stands, and decorations, including trees, fountains, and statues. Hard-working zoo directors can level up in no time at all. Zoomumba offers a friendly community and intuitive gameplay, making it a pleasure to play for experienced or inexperienced players alike.
