The world of BC Wars is made up of three main regions: Pangea, Gondwana, and Laurasia. Each region has its own set of unique places to visit, explore, and things to do. Exploring different areas within these regions is one of the main ways to advance in the game. Exploring is measured by steps (similar to turns in other games), and you can take 200 steps per hour. While exploring, you can find clams, items, receive quests, and battle monsters.

There are two main types of battles in BC Wars. You can run into monsters while exploring, or you can battle other players in PVP battles from the Battle page. Monster battles allow you to get clams and items. You can make bets during PVP battles to win extra clams."
